

# Connected Digital Services

A PwC Product

## Concierge Platform for Digital Risk Management

### Compliance, Forensics & Risk Management

Comprehensive regulations that must be implemented in a timely manner

Upskilling and the provision of necessary resources are cost-intensive

Internal and external threats amplify the need to prevent financial and reputational risks

Increasing need for digital solutions that enable continuous monitoring and meaningful analysis

Take control of your business risks with **Connected Digital Services**, PwC's concierge platform. Independently manage and perform analytics using our digital forensics solutions.

#### Need help?

Get it from our PwC experts – at the press of a button.

#### Connected eDiscovery

Identify, capture and search electronic data such as emails or documents - to be able to use them as evidence in a legal case.

#### Connected Financial Analytics

The tool supports you with the regular analysis and visualisation of your financial data and accounting transactions.

#### Connected Risk Intelligence

With our highly automated global news and network analysis tool, you can identify critical early warning signs.

#### Connected Contract Analytics

Record contracts quickly and comprehensively: Get an overview of your contract conditions at short notice.

#### Connected Screening Services

Identify sanctioned individuals, companies and organisations – and prevent risks such as financial or reputational damage.

#### Connected Global Intelligence

The tool provides relevant information about companies as well as individuals and helps you ensure that your business relationships meet all compliance requirements.

**Be prepared for the future! We are happy to advise you.**
